Wonder 2017

**What we achieved
together**

Message from the Vice-Chancellor

“I am in awe of the commitment and enthusiasm that University of Nottingham staff and students have shown for Wonder. Being genuine in our care for and interest in the local community will always be important to us. I am proud to have worked with colleagues who put this feeling into action so emphatically when the opportunity arises - and who do it so well. I was not surprised to read, having attended the event myself, that our visitors found our people and our campus so welcoming. I could tell the day meant something to all those who came to be part of it. This event has been a fantastic achievement and a very big success – thank you to all who were involved.”

Professor Sir David Greenaway

Wonder key facts

- Over **800** staff, students and volunteers participated on the Wonder Home Team
- **111 fun and educational activities** took place across 5 Zones
- **c7,280 visitors attended** Wonder against a target of 5,000-6,000
- Our feedback from the staff, students, volunteers and visitors has been **overwhelmingly positive**

We can't
thank you
all enough!

Wonder benefits

We aimed...

“To increase local understanding and appreciation of the University’s value to the community in terms of both economic impact and social responsibility”

A background photograph of a diverse group of people at an outdoor event. In the foreground, a young man with brown hair is smiling broadly, wearing a white t-shirt and a green and yellow patterned scarf. To his left, a young woman with dark hair is looking towards the camera. Other people are visible in the background, including a man with a beard and a woman wearing a straw hat. The scene is bright and sunny, with trees and a white tent visible in the distance.

94% of our surveyed visitors agreed or strongly agreed that the University provides a valuable contribution to the local community

We aimed...

“To provide opportunities for schools and departments to demonstrate engagement with the local community for research bids and grant reporting”

79% of surveyed Activity Leads agreed that Wonder provided a useful opportunity for their research centre/school/department or student society to demonstrate engagement with the local community

We aimed...

“To provide opportunities for departments to demonstrate engagement with the local community and partners to further their mission and strategy.”

- The Campaign and Alumni Relations Office raised £504 for the Children’s Brain Tumour Research Centre
- Sport captured the details of 97 people who are interested in joining their Junior Futsal Academy
- Lakeside recorded over 5,430 visits to 16 activities located in the Museum, DH Lawrence Pavilion and surrounding areas

We aimed...

“To engage Nottinghamshire children and families in University life, skills and research to inspire more local children towards higher education”

We had 7,280 visitors, of whom we surveyed 3.4%

Of those surveyed, 91% were from local postcodes (NG, DE, LE)

The number of families attending through partnerships with schools in less advantaged areas increased

65% of parents surveyed want their children to attend university

Objectives

Our project aim was...

“To host primarily Nottinghamshire families for a **stimulating day of discovery, play and learning** at University Park to increase local community understanding of the University’s contribution and relevance to the city.”

Was it a stimulating day of discovery, play and learning?

Were we good hosts?

And did we enjoy it?

Our visitors said...

“ The staff and researchers were fantastic, their ability to **engage young children and explain their research** was fantastic, my children are 4 and 6 and they were engaged and interested in the activities because of the **enthusiasm and knowledge of your staff**, we were particularly impressed by your scientists, they were all brilliant, particularly the ladies with the cheek cells experiment and the wound healing with the scaffolds and polymers. [...] To people who live locally (in my opinion) the University has seemed - until now - a mysterious closed off place. **The Wonder event made me feel proud to live in Nottingham** with such talented people with all kinds of ideas to make the world a better place, proud to bring my children up here and know that they can be part of the University too when they grow up. I have two children desperate to be scientists now, thank you. ”

Visitor experience overall...

**Top 5 words visitors
used to describe
Wonder:**

Enjoyable

Inspiring

Fun

Exciting

Amazing

Visitor experience – would our visitors recommend Wonder? Yes!

Promoters
77%

Likelihood of recommending Wonder to others

Detractors
8%

NPS score of 69 = Excellent!

Visitor experience – a warm welcome

97% of visitors (excluding staff and students) agreed that they felt welcome on campus at Wonder

Visitor experience – a warm welcome

“ The event was **inspiring**. Residents from the local area, who had lived here for going on 15 years had '**never dared**' come onto main campus, sticking to the lake and park areas. After the event they feel **more comfortable** seeing what else the University has to offer and more broadly what HE could possibly do for them. Such a wonderful experience. ”

Visitor experience – top comments

What our visitors said they **enjoyed most**:

The variety

Everything

The weather

The dogs

The climbing wall

The Vikings

The Lido

The atmosphere

Hands-on activities

Chemistry

Physics

Visitor experience – top comments

What our visitors said we should **improve**:

Too spread out

Make it easier to find
event info

Should be a 2-day
event

More/better signage

Clearer map

Make it easier to get
around

The app needs
improvement

Nothing!

Home Team experience – would you help us again? Yes!

How likely are you to help again at a future Wonder event?

Our Home Team members had such a good time they'd do it again (Especially if we can make the marquees cooler and keep them better hydrated!)

Home Team experience – a community on a mission

“ I really enjoyed seeing a different demographic on campus and working with children, families and people of all ages - not what I'm used to! It made me feel **part of the bigger University family** - lots of faculties, staff and students all working together to achieve. I found it really engaging and positive. ”

Home Team experience – a community on a mission

“ Happy to help and support and worked with the Children’s Brain Tumour Research Team. Met some wonderful people on the day including a girl who aspires to be a researcher and donated £10 of her pocket money and another little girl who only that morning donated her hair to the Little Princess Trust which funds vital research at the Centre. It’s wonderful to **raise the aspirations of children** as for some this will be the first time they have visited a University ”

Home Team survey respondent

Home Team experience – a community on a mission

“ Its the University's flagship piece of outreach into the community and so I am happy to be a small part of it. ”

What next?

Everything is possible

Wonder 2018?

We've learned a lot and have been given fantastic feedback and ideas for future Wonder events.

In the meantime...

Wonder 2017 was a big achievement

We hope you feel proud
of what you achieved.
Together we made
something very special
happen for the local
community.
